AFFAIRS READINESS™

A guided approach to planning, preparedness, and peace of mind.

Care ✦ Clarity ✦ Continuity

What Is Affairs Readiness?

Affairs Readiness addresses the personal, practical, legal, emotional, and legacy matters that often become urgent during illness, incapacity, or death.

Through thoughtful planning and meaningful conversations, individuals and families can create greater clarity, continuity, and peace of mind.

Why It Matters

When wishes are documented and conversations have taken place, families can spend less time guessing and more time supporting one another.

Affairs Readiness is designed for individuals, families, caregivers, and anyone seeking greater clarity and peace of mind before a crisis occurs.
